Message from the President

Service to the sick and needy of the community was the primary objective of Sevakshetra Hospital when it was officially inaugurated in the year 1979. Even though **Canara Bank Relief and Welfare Society (CBR&WS)** had initiated health care by starting a Medical Centre in the year 1962, through which medical camps were conducted in nearby rural areas, the formal five bedded Sevakshetra Hospital came into existence after nearly seventeen years. Since then Sevakshetra has expanded its health care services by its community friendly policies and projects. Affordable charges, availability of specialists, concession to BPL card holders, Geriatric Care to the aged and in need of constant medical care, etc. have made Sevakshetra, a 'Hospital with a humane approach'.

Now, to minimize the suffering of people with life threatening diseases, and to provide accessible palliative care, with a goal to reach such individuals from socio-economically humble backgrounds, Sevakshetra Hospital and Swami Vivekananda Youth Movement (SVYM) have recently entered into a partnership model to provide Palliative Care for bed ridden patients in Bengaluru.

Palliative care is a specialized medical care that aims to improve the quality of life and reduce suffering for people with serious life-threatening illnesses. It focuses on providing relief from pain and other symptoms of serious illnesses from the stage of diagnosis until the end of their life.

Sevakshetra Hospital has extended the ward and laboratory facilities, five beds with basic infrastructure. SVYM is extending support with a qualified Palliative Care Physician and specially trained Palliative Care nurses, counsellor and health workers under their Palliative Care Program.

For this purpose an MOU was signed by both the Institutions on August 16, 2024 to carry forward this collaborative venture. This Palliative Care Centre, started with the collaboration and cooperation of Sevakshetra and SVYM, will benefit many needy people.

Thank you,
With Best Wishes

Prakash P. Mallya
