Message from the President

The outbreak of the Coronavirus Disease created a global health crisis that left a deep impact on the lives of people, irrespective of age, sex, rich and the poor. What disheartens me more is the fact that how a pandemic fractured the whole world economically, socially, psychologically leading to the loss of many valuable lives, for some years.

The hardships, disruption, uncertainty and fear brought about by the pandemic, shook the confidence and commitment level of the Management and Staff of Canara Bank Relief & Welfare Society in facing the challenges and handling the crisis in an effective manner. Having the infants, senior citizens, inmates of Geriatric Centre and patients of Sevakshetra Hospital, the Society, with the collective efforts of all, sailed through the difficult days with the highest level of precision in health care. The fatality was negligible in critical cases compared to the magnitude of the vulnerable inmates of the Institution.

Thanks to the Medical Director, Hospital Doctors and Staff, Secretary, General Manager, Staff of the Society, kitchen staff of Mathruchhaya and all those who stood with us in bringing comfort to the sufferings of the affected. We are grateful to the Donors who continued their support even during these hardship days.

Sevakshetra which was recognized as the COVID hospital took good care of the COVID patients, apart from managing other emergency services. The Hospital also reached out to the general public by administering COVID vaccine along with the inmates of the Institution, on time effectively.

For a little over two years (from June 2020 to June 2022) we have not been able to continue with all community activities which also included publication of the Mathruchhaya Newsletter. Except for the Silver Jubilee celebration of the Braille Resource Centre in November 2021, no other entertainment or educational activities were held in the campus.

We have now restarted all the outreach programs and hence this Newsletter is in your hands after a gap of two years.

Thank you,
With Best Wishes

Prakash P. Mallya
President

PS: The publication of this issue of the Newsletter was delayed due to the lock down and the difficult situation that arose because of COVID -19. For the treatment of the affected, Sevakshetra hospital is equipped to treat COVID-19 patients with due care and by segregating non-COVID patients.

Editorial

At the outset I would like to thank all the members for electing me as the Hon. Secretary in the recently concluded Annual General Meeting. I consider this as an honour and an opportunity bestowed upon me to serve the community to the best of my abilities. I am taking charge from a person, who had a long association with the institution and served it with passion and commitment. I will put in my best efforts to emulate his good work.

While I had an opportunity to associate with the activities of the Society since the last few years, as a resident of this area and also as an employee of Canara Bank I have also witnessed the steady growth of this institution and its outstanding work in terms of providing quality health care to the poor and needy sections of the society. I have also seen its total transformation in terms of appearance, amenities and the availability of the state-of-the-art technology for patient care. Today it can proudly stand out as one of the best hospitals in the vicinity. The elders' home has established its identity as an ideal one from all respects. Similarly the outstanding work done by our Braille Resource Centre is reaching new frontiers. My compliments to the dynamic leadership and direction provided by the Governing Council.

I am happy to find that this momentum is being sustained by a strong word of mouth promotion of the Society's good work, excellent support from the donors, the enthusiasm and commitment of the staff & volunteers and last but not the least, the involvement and initiative of the team of visiting doctors and consultants.

With COVID on the wane, the future looks bright and has strengthened us to fly high and conquer new heights of performance.

Let us all work together unitedly to realise our goals.

Thank you
With best wishes,

D.S. Anandamurthy

Health Care Management During COVID-19 by Sevashetra Hospital

The sudden upsurge of COVID 19 pandemic during the year 2020 to 2021, created acute challenges for health care industry because of inadequate ICU care, shortage of supply of Oxygen concentrate, financial loss due to shortage of inpatients, shortage of medical staff, and many other underlying problems.

The situation at Sevashetra Hospital was no better. The Hospital which was recognized for administering COVID vaccines, got equipped to reach out to people in the neighborhood, without losing time.

But, as the pandemic was spreading rapidly, Sevashetra was also designated as COVID Hospital by the BBMP.

It was a real challenge for the Institution as there is a Geriatric care Unit, a Unit for Elderly Care, and a Unit for taking care of infants, all housed in the same campus. The inmates of all the three Units being highly vulnerable, the problem of segregation became a real challenge.

The Management of CBR&WS swung into action immediately. The inmates of Geriatric Care and Elders' Home and all the Staff Members were vaccinated on priority. They were segregated from the Hospital area temporarily.

The Ground floor of the Hospital was converted to COVID wards, 30 in number, by shifting all other wards to First and Second floor. A separate Counter and entry/exit for COVID patients was created. A new ICU was made ready exclusively for COVID patients.

The Hospital hired on contract three Doctors exclusively to treat COVID patients. Arrangements to supply fresh hot food to patients was made immediately.

The General Manager, Medical Director and a few staff members were working round the clock to monitor the situation. The entire floor was sterilized and utmost care was taken for hygiene.

The supply of Oxygen concentrate was handled well without causing inconvenience or shortage to the patients.

During the first wave, from September 08th to November 19, 2020, 117 number of cases were treated with no causality.

In the second wave from April 12th to June 24, 2021, 168 Cases were treated. Totally 285 COVID patients were treated.

The sudden change in the supply and demand of medicines was handled effectively, with ethics and values, as observed by Canara Bank Relief & Welfare Society.

Thanks for the support received from the Management and staff members for efficiently handling the crisis.
